

## Lap Band Story

### Lap Band Story

After trying a number of weight loss programs, Zatarra decided to give the lap band surgical procedure a try.

Having injured her knee when she was a teenager, Zatarra noted that she gained weight on a pretty regular basis as a result of not being able to exercise properly. With the weight loss programs she was trying not working for her, Zatarra sought Lap Band for Positive Results.

Zatarra did her research on different lap band surgeons and when she found one she was comfortable with, she decided to go for it.
